ENGRAVER'S DEPARTMENT,

26th October, 1887.

Sir

I recommend J. H. Johnson to repair
 Slide Rest for the following reasons.

Having made the rest he knows better how to repair
 it, and having made it he has the required tools to
 repair, and in consequence of having the knowledge
 and the tools can do the work at less cost.

The fact that he objects to give an estimate only I
 think proves his honesty as it would ^{be} an easy matter
 for him to name such a price as would surely
 cover all costs, but this in my estimation would
 not be an honest estimate.

Very Respectfully
